Subject: PDI field oversight reports LOE

Sean,

As a follow up, the (b)(4) 1-95

The reports will cover documentation of the field oversight and presentation of any split sampling data, including data validation. Each report would be prepared at the end of the field event.

Subject: Re: Daily status report March 20, 2018, Pre-Remedial Design Investigation and Baseline Sampling, Portland Harbor Superfund Site sf O/S REPORT

Sean,

We have in our scope a field oversight report that would document any oversight and split sampling. It's set up as one report per major field activity. I was thinking the daily reports, photographs and photograph logs could be attached to those reports. I could get you the loe for those reports.

Thanks

Howard

> Scott, just to confirm consistent with our Passed over site work for me can you give me the level of effort to roll all these daily reports and pictures up into one PDF file at the end of field efforts? It doesn't need to be a fancy formatted report just a file merge that includes everything so I can put it into our record. Thank you
